SUMMARY

I'm a JavaScript developer with 3 years of experience building fast and scalable web applications using **JavaScript**, **TypeScript**, **React.js**, **Next.js**, and **Node.js**. Proficient in state management (**Redux**, **Context API** and **Zustand**), backend Integration (**Firebase**, **Payload CMS**), and creating user-friendly interfaces. Experienced in backend technologies **Node.js**, **Express.js**, **MongoDB**, **NoSQL**, and **SQL**.

EXPERIENCE

Software Developer, Sookshum Labs technologies

03/2025 – 05/2026

Mohali

- Developed and maintained scalable web applications using React.js, Next.js, JavaScript, and TypeScript.
- Implemented state management solutions with Redux, Context API, React Query, and Zustand to improve application performance and data consistency.
- Optimized data fetching and caching strategies, reducing data retrieval times by over 90%.• Integrated REST APIs and backend services using Node.js, Express.js, and MongoDB.
- Performed testing, debugging, and code reviews to ensure high-quality, production-ready applications.

PROJECTS

Sookshum Labs Technologies (official website) 🌐

- Built scalable web applications using Next.js, React.js, JavaScript, TypeScript, MongoDB, REST APIs.
- Optimized UI/UX with Tailwind CSS and Lottie animations, improving performance via Next.js Image and lazy loading.
- Managed application state using React Context to ensure efficient data flow and component reusability.

Sookshum Labs portfolio 🌐

- Developed a dynamic, content-driven portfolio website using Next.js, React.js, and TypeScript, focusing on modular and scalable architecture.
- Integrated Payload CMS as a headless backend to manage content, with customizable collections and flexible schema definitions.
- Implemented a fully functional admin panel at `/admin`, enabling authenticated users to perform CRUD operations on projects through Payload's dashboard.
- Secured admin routes using Payload's built-in authentication system with role-based access control (RBAC).

DHP Admin App 🌐

- Role-based access control (RBAC) to manage user permissions and restrict access based on roles.
- Implemented two-factor authentication (2FA) and recovery codes to enhance account security.
- Architected Digital Health Passport Dashboard using Next.js, React, and TypeScript with secure RBAC, 2FA Auth and full CRUD integration.
- Built UI System with shadcn/ui, designing reusable components, forms, and modals for a consistent admin experience.
- Optimized Large Datasets using pagination and virtualization to ensure high-performance rendering of health records.
- Analytic dashboard to visualize users, user data, user activity, and engagement metrics

AI Kitchen Sink 🌐

- Built a full-stack AI platform using Next.js, Firebase, and Firestore.
- Integrated OpenRouter APIs for AI chat, image generation, image editing, text-to-speech, speech-to-text, and audiobook creation.
- Implemented role-based access control, multi-workspace collaboration, and user invitation features.
- Developed chat and prompt management with cloud-based storage and history tracking.
- Integrated Lemon Squeezy for subscriptions, payments, and coin-based usage management.

TubeLight 🌐

- Built a full-stack course platform using Next.js, React, Node.js, Express.js, and MongoDB.
- Developed subscription-based access control for private courses and video content.
- Implemented video uploads, likes, comments, and doubt-discussion features to improve learner engagement.
- Integrated Cloudinary, Multer, MongoDB Atlas, and Render for media storage, database management, and deployment.
- Created responsive and user-friendly interfaces using Shadcn UI and Tailwind CSS.

EDUCATION

Bachelor of Computer Applications (BCA), Punjabi University

07/2019 – 07/2023

Patiala

SKILLS

- **Frontend:** JavaScript (ES6+) | TypeScript | Next.js (SSR/SSG/ISR) | React.js | Tailwind CSS | HTML5, CSS3.
- **State & Data:** Redux Toolkit | Zustand | React Context | TanStack Query
- **Backend & DB:** Node.js | Express.js | MongoDB (Mongoose) | Payload CMS | Firebase | Cloudinary | Strapi CMS | PostgreSQL
- **UI & Logic:** shadcn/ui | Material UI (MUI) | TanStack Table | React Hook Form | Zod | YUP | SVGR Webpack
- **Tools & DevOps:** Git/GitHub | Vercel | CI/CD | REST APIs | NextAuth | Lottie
- **Soft Skills:** Communication Skills | Teamwork | Quick Learner | Time Management | Problem Solving | Positive Attitude | Adaptability | Hardworking | Organizational Skills | Leadership Skills

LANGUAGES

- Hindi, English, Punjabi
